Nancy,

This is what my notes reflect, too. I'm copying Liz and she will send you a copy of the Mobotec information that we have.

Thank you for coming to Santa Fe to meet with us; I think the meeting was very helpful.

mary

Subject: Meeting

Mary,

First, I wanted to thank you and your staff for meeting with us yesterday. I know that PNM and our consultants found the meeting to be very useful and believe that future meetings will also be helpful.

Just to re-iterate the action items from the meeting:

1. Rita and Gi-Dong and possibly Kyle Lucas will talk with EPA Region 6 about CALPUFF version 6.1 and version 5.8. The results of this call will help determine any additional work that needs to be done.
2. Liz will let PNM know what emission rate NMED thinks we should use in a ROFA BART analysis.
3. Black & Veatch will prepare the total cost for Rotamix for submittal to NMED.
4. PNM will submit the coal data to the NMED.
5. PNM and B&V will redo the particulate BART analysis looking at emission levels below 0.015 lb/mmbtu.

Please let me know if I have represented any of the items incorrectly.

PNM and B&V would like to get a copy of the information Mobotec sent to Liz to confirm that it is the same information they sent to us.

Thanks.

Nancy
